

**Georgia World Congress Center  
PRINTING United Halls B, C and B/C Connector**

**FLOOR PLAN KEY**

Note the exhibit hall is continuous space but we have broken down the following images to either B hall, C hall or B/C connector (center of the “U”). During move-in and move-out trucks drive directly through the Connector. The booths shaded in green will have limited set-up and tear-down time.

**B HALL**

**Downtown hotel shuttles drop off on B-Hall Side and foot traffic from walkable downtown hotels**

**Registration on the B Hall Side will be located a couple levels up in Reg Hall**

Columns (purple highlight), main entrance roll up doors (red highlight) main aisles are shown in yellow and are 20' wide.

## B/C CONNECTOR

The connection between B and C halls to make this continuous exhibit space

[illegible]

This detailed floor plan shows the layout of the exhibition hall. A large teal-colored area at the top is labeled "NOTHING OVER 20' TALL". Below this, three main entrance areas are marked: "ENTRANCE C1/C2", "ENTRANCE C2/C3", and "ENTRANCE C3/C4".
